

hov pod

Hov Pod Hovercraft, designed for value, durability, safety & ease of use.

Simply the Best!

The Hov Pod SPX is a new generation of safe, high quality, easy to use, strong, durable & reliable hovercraft, offering great value for money & in a class of its own. As selected by Hamrods & featured on TV shows "How It's Made" & "How Do They Do That". Taking up to 2 large adults at speeds up to 45mph the Hov Pod SPX has one simple set of controls which can be mastered in minutes. This together with high quality levels incorporated as standards, but unheard of in other craft make the Hov Pod an ideal craft for anyone, be it for leisure, patrol, rescue, survey, or commercial rental. The unique Hov Pod hull is manufactured from HDPE - very strong, lightweight and yet extremely buoyant. Available with 2-stroke 65HP Rotax 562 or 4-stroke Weier 120HP Turbo, plus wide selection of options available.

Hov Pod SPX Hovercraft

Work Or Play

Hov Pod SPX Hovercraft are suitable for leisure or commercial applications. Uniquely manufactured from robust HDPE High Density Polyethylene, the SPX range of Hov Pod Hovercraft are extremely strong and able to take the punishment that all-terrain craft demand.

Originally designed for the leisure and rental market, the Hov Pod SPX range are now in demand for a number of commercial applications, e.g. rescue, patrol, UYO detection, marine survey and access, bridge repair and maintenance, oil exploration, power-line and pipeline inspection. As used by The Red Cross, United Nations World Food Program, DLRG. Available with a choice of 2 stroke or 4 stroke turbo powered engine, or for OEM local manufacturing. The Hov Pod SPX provides safe access to tide restricted areas, fast running rivers, mud, grass, desert, swamps, marshland, river beds, open waters, sand, snow and ice. The Hov Pod Hovercraft is the best selling hovercraft currently available, so contact us to find out more about this awesome go anywhere craft.

"We found the craft very easy to drive and were able to use it almost straight away. The smooth operation & transition across a wide variety of surfaces meant the job was done in half the time. We needed a durable craft for all terrain use and the Hov Pod stood up to everything we could throw at it. The hull took several hard impacts and we didn't need to change any of the skirts, even after operating over rough ground. Choosing the Hov Pod was the right decision as we have made large savings in purchase and operating costs".
